PROFESSIONAL SUMMARY

AI-specialized Software Engineer with expertise in architecting scalable, full-stack applications powered by JavaScript and Python. Focused on engineering high-performance, asynchronous backend systems and optimizing computational efficiency. Backed by strong competitive programming experience and core DSA expertise, he consistently translates complex algorithmic bottlenecks into robust, production-ready solutions.

EDUCATION

Bachelor of Technology (AI ML) Newton School Of Technology(ADYPU), Pune	2024 - 2028 Grade: 6.91/10.0
Intermediate (Class XII) THE VIVEKANAND SCHOOL,Narela	2021 - 2023 Grade: 57.4%
Matriculation (Class X) ST.JOSEPH'S SCHOOL, Jahangirabad, Bulandshahr, Uttar Pradesh	2020 - 2021 Grade: 83.4%

PROJECTS

Triage Flow ([Github](#)) ([Demo](#)) February 2026

- Engineered a DAG-based clinical workflow engine enabling deterministic, real-time triage protocol execution.
- Developed secure REST APIs using **Node.js**, **Express**, **JWT** with role-based hospital access control.
- Designed a React + React Flow interface for visual protocol creation and guided execution.

Farm and Fresh ([Github](#)) ([Demo](#)) November 2024

- Built a categorized recipe platform featuring breakfast, lunch, dinner, and dessert sections for structured browsing.
- Integrated high-quality images and instructional videos to enhance recipe understanding and user engagement.
- Developed a responsive, interactive UI using **HTML**, **CSS**, and **Javascript** with version control via GitHub.

CERTIFICATIONS

Overclock'26 Newton School of Technology February 2026

- Architected an enterprise-grade **MERN** clinical triage platform in under 24 hours, integrating a **React Flow** visual builder to decouple hardcoded medical logic into dynamic, physician-controlled pathways.

Generative AI for Everyone DeepLearning.AI (Coursera) ([Link](#)) June 2025

- Mastered **LLM** architecture and advanced prompt engineering to architect agentic workflows, powering scalable AI-integrated developer tools and backends.

AI For Everyone DeepLearning.AI (Coursera) ([Link](#)) February 2025

- Mastered core **Machine Learning** and **Deep Learning** paradigms to evaluate complex data architectures and strategically integrate high-leverage **AI** models into production workflows.

SKILLS

Computer Languages: Machine Learning, Python, TypeScript, HTML, CSS, JavaScript, SQL

Data Tools: NumPy

Software Packages: Pandas, Figma, React Native, Next.js, Prisma ORM, React, Node.js, Express JS, MySQL, MongoDB

Additional Courses: Data Structure

Others: Git and Github, Generative AI
